

GOdist instructions

1. Extract and save GOdist folder in a separate folder.
2. Run Matlab 7 or more advanced version (either double-click on **Matlab icon, or from start -> program -> Matlab**). Wait (it may take a few minutes until Matlab runs).
3. When Matlab appears, in the upper top panel browse Current Directory by clicking on the icon: 
4. Select the directory \GOdist that you have saved in stage 1.
5. In the Matlab Command Window (where the '<<' sign is), type **GOdist**.
6. Press on 'instructions' button and follow the instructions.
